PROFESSIONAL SUMMARY

Software developer with hands-on experience designing, building, and maintaining enterprise web applications, including developing backend systems for a mobile-integrated food delivery platform. Proficient in PHP, Laravel, JavaScript, Angular, React, TypeScript, and PostgreSQL/MySQL, across the full lifecycle from database design and REST API development to responsive frontend implementation.

TECHNICAL SKILLS

- **Backend:** PHP, Laravel Framework, REST APIs, .NET Core
- **Frontend:** JavaScript, TypeScript, Angular, React, Bootstrap, HTML5, CSS3
- **Database:** PostgreSQL, MySQL, Database Design & Modeling
- **Tools & Practices:** Git, GitHub, MVC Architecture, Agile Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Laravel Developer

August 2025 – Present

Lele Ventures Pvt. Ltd., Lalitpur, Nepal

- Lead developer on a food delivery platform, owning backend and web frontend architecture and collaborating daily with the Android team to define API contracts and ship the mobile app; also develop features across multiple client web applications using Laravel, JavaScript, Bootstrap, and Angular.
- Design backend business logic, request validation rules, authentication, and versioned REST API endpoints consumed by the Android app; optimize PostgreSQL/MySQL schemas, migrations, and query performance.
- Diagnose and resolve runtime issues, refactor legacy code, and conduct peer code reviews.

Key projects:

- **Enterprise Inventory System** — Laravel, MySQL, Bootstrap. Stock and inventory tracking for enterprise clients; ongoing maintenance and improvements.
- **Task & Service Management Platform** — Laravel, MySQL, JavaScript. Internal platform for tracking tasks and service requests; owned legacy codebase maintenance, bug fixes, and features.
- **HR Management Application (Contributor)** — Laravel, PostgreSQL, Angular. Multi-tenant HR platform with tenant-isolated data and role-based access.
- **Learning Management System (Contributor)** — Laravel, MySQL, Angular. Course delivery, enrollment, and progress tracking; built core features.

PERSONAL PROJECTS

- **Roommate Finder Platform (Academic Project)** — Laravel, Bootstrap. Full-stack app connecting people seeking roommates via location-based matching, user profiles, real-time messaging, and preference filters.
- **Trello Clone (Personal, In Progress)** — React, .NET Core. Kanban-style task board built to extend Laravel/Angular experience into a React + .NET Core stack.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)

2022 – 2026

Tribhuvan University • 76%
